realistie**

04

The background features a complex network of thin grey lines connecting various points, forming a web-like structure. Scattered throughout are numerous triangles of different sizes and orientations, some with solid black dots at their vertices and others as simple outlines. The overall aesthetic is minimalist and technical.

Wat is er onderzocht

Benodigdheden om sites te hosten

Onderzoek op basis van vragen bijvoorbeeld:

- Welke OS en waarom?
 - Welke voorbeelden zijn er al?
 - Waar zitten de grootste problemen?
-

Waarom?

Hosting voor projecten PHP uit 2ITF:

- systeem
- uploaden van projecten
- op basis van enkele criteria (operations report

card)

03

Technologie en software

Operating software

Password management

Criteria	Weight factor	KeepPass	Bitwarden	Password Gorilla
Total weight points	500	318	256	287

KeepPass

Operations report card:
Do you have a password safe?

Monitoring

Criteria	Weight factor	Nagios	Zabbix	Initial State
Total weight points	600	277	337	303

ZABBIX

The Ultimate Open Source
Monitoring Solution

Operations report card:

Does each service have appropriate monitoring?

User management

Criteria	Weight factor	Laravel	Symfony	Yii
Total weight points	500	353	299	325

Operations report card:

Can a user's account be disabled on all systems in 1 hour?

Can you change all privileged (root) passwords in 1 hour?

Back-ups

- Remote sync
- Crontab file

Operations report card:

Are your backups automated?

Policies

- Hulp vragen
- Noodgevallen
- Ondersteuning

Operations report card:

Do you have a "policy and procedure" wiki?

Do you have a PC refresh policy?

Do you have a "post-mortem" process?

Do you have a written security policy?

Does your team write "design docs"?

Are "the 3 empowering policies" defined and published?

VMWare Workstation Pro

Operations report card:
Is there a database of all machines?

Operations report card:

Are user requests tracked via a ticket system?

Do automated processes that generate e-mail only do so when they have something to say?

Do you submit to periodic security audits?

Do machines in your data center have remote power / console access?

Do you have a pager rotation schedule?

Is your team's code kept in a source code control system?

GitHub

The background features a complex network of thin grey lines connecting various-sized dark grey circular nodes. These nodes are scattered across the page, with a higher concentration on the right side, creating a web-like or molecular structure. The overall aesthetic is minimalist and technical.
